of the foot until it leaves the trench. The work of the Army Service Corps begins when the wagons of supplies come within range of small artillery or rifle fire. They are only permitted to move under cover of darkness and are usually brought up to within a half mile of the trenches. As the battalion is sent to the front line at the same time, a part remaining about half a mile back is sent to the rear. In those in the advance trenches. If the company is in the advance, the other company forming the battalion, would be held in reserve. The company in the rear is sent to the point nearest supply support. The front line is on duty all time, but those in the second line may take a more rest. At night the company may take up position in the advance trenches. If the front line is in a favorable position the men have freedom to make tea and eat a small steak, but this is not always possible. The German trenches conform ex-

Montreal, Only 23.—Following the report yesterday that an aeroplane had visited Chateauguay, near Montreal on Tuesday night and that a German officer living there had been missing since and is believed to have left in the machine for the United States, it was made known that Chateauguay, which is situated in Belgium, France and England, had a "German gun base" a solid concrete foundation for the mounting of big guns. This concrete structure, seven feet in depth, was built more than a year ago by a German resident and covered over and used as a tennis court. The situation commands the Soulanges canal and the railways in that vicinity. The matter has been reported to the authorities at Ottawa.

My baby was in a very dangerous condition. He sent me some tablets which cured the child vomit, and when I learned that they cured vomiting I ordered a supply to stop the trouble. In the meantime I had been giving Dr. Fowler's Extract of Wild Strawberry which I continued using, and when the bottle was all used my baby was cured. I can tell you only fair to let you know about it."

Dr. Fowler's Extract of Wild Strawberry has been on the market for the past 70 years, and is known from one end of Canada to the other as a positive cure for all bowel complaints.

When you ask for "Dr. Fowler's" be sure you get what you ask for as there are many rank imitations on the market.

The genuine is manufactured by The T. Milburn Co., Limited, Toronto, Ont.

Price, 35 cents.

## MAKING BUTY BEEF IN ALBERTA

Although considerable numbers of 3 and even 4 year old steers grass fed, still come from the ranges of Alberta, the rapidly increasing production of grain and cultivated feeders is tending to bring about the marketing of cattle at a much earlier age than was usual under the old conditions.

For some years past sales of two year old fat steers and unfortunately calves, have been increasing in frequency, but baby beef has until now been unknown on the Alberta market.

The following brief story of an experiment in the fattening of 1 year calves, was given by one of the men at Strathmore is therefore of interest.

On November 23, 1914, 44 steer calves, mostly of Hereford and Shorthorn breeding, which had been running with their dams from birth were weaned and placed in feeding pens holding from 8 to 15 head in the big barn at Strathmore.

A few were March calves, but the great majority were from 6 to 8 months old.

Some were of excellent beef type and quality, but, as beyond taking the best of those which happened to be on hand, they were not specially selected, a number were more or less lacking from a feeder's standpoint.

Calves quite as good or even better than calves procurable in Alberta are available.

The average weight at weaning was slightly over 486 pounds, being not quite so good in flesh as they would have been had the weather in October and November been more favorable than it was last year.

Circumstances also prevented the carrying out of a very valuable feature in the production of baby beef, namely, the teaching of calves to eat chop while still with their dams thus holding the milk fresh and forestalling the check at weaning otherwise unavoidable.

Throughout the feeding period the calves had all the fodder they would pick up clean. At the beginning, a little restriction was put on the quantity of grain given, 2 pounds per head per day being the amount started with. By the end of the first month this quantity had been doubled between 6 and 7 pounds per head per day being the amount from the beginning of the full feed until the calves were sold.

The grain mixture used at the start was two parts of oats, one part of barley, and one part of bran. About the first of February the barley was increased to half the ration and the same proportion of bran continued. A small quantity of crushed corn was added to the mixture.

After the first of January, a total of 60 bushels being fed from then until the first of February, the grain required was valued at the market prices prevailing for the same at the end of October; oats at 48 cents per bushel, barley 70 cents, and bran \$23.00 per ton. With the grain the grain figured at approximately 11 cents per pound.

Great oat sheaves furnished the bulk of the fodder, about two pounds of oat sheaves to 1 pound of hay being the proportion. The oat sheaves were valued at \$7.00 per ton and the alfalfa and \$7.00 per ton for the alfalfa hay. The quantity used of each made the cost of hay approximately \$10.00 per ton. The barn was well lighted and ventilated and water and salt were available at all times.

The calves were purchased by R. C. Mitchell & Sons, of Medicine Hat, and were weighed out on the 15th of May, having been 164 days on feed. Forty-four head weighed a total of 34,890 pounds, an average of over 790 pounds.

The gain made by each calf averaged about 306 for the period. The gain of eight Herefords made the biggest gain during the period. On May 6, this lot, weighed just 12 months of age, weighed 950 lbs. each. On May 15, they weighed 1,256 lbs. each. In 11 months, weighed 798 pounds each. A third lot of 6 head of the same age, 786 pounds each; and the lot of 15, the youngest calves, 706 pounds.

The price realized was 81 cents per pound, with a cut of one cent per pound on the 15 light calves, and 1 cent per cent shrinkage on the whole lot they were weighed out of the barn. This figured out as follows:

44 calves, 21,404 pounds \$128,244  
24.06 lbs. oats sheaves @ \$7 159,211  
45.80 lbs. hay @ \$10 215,400  
23.86 lbs. of chop at \$11 262,336  
6,993 lbs. bran @ \$23.00 7,338  
Cost \$279,114  
Returns  
29 calves, 24,385 lbs. \$16 296,242  
15 calves, 19,355 lbs. 71c 794,623  
Less 5 p. cent shrinkage 142,394  
Cost \$279,114  
Net Profit 436,760

Cost per pound of gain, 7 cents. This outfit shows a net profit of nearly \$100.00 per head. Considering the feed prices this year, this may be considered a very satisfactory result, and the calves were sold at ordinary conditions, with grain worth 75 cents per hundred instead of \$1.50, with hay at least \$2.00 per ton cheaper, and with the price of the finished product as high as that realized for these calves were sold at a moderate price—there would have been a net profit of over \$170.00 per head.

Practical observation of these calves during the winter confined the feeders to the conclusion, about which there is perhaps nothing very new: That feeding calves for baby beef pays even under prevailing high prices for feed and moderate prices for calves; that the best gains are made by calves about 8 months old, at the beginning of the feeding period; that it pays to select calves carefully, taking only those that carry a fair amount of natural flesh; that calves have never had a setback; that beef type and natural fleshing are the best.

Rolling factors in determining the length of time and quantity of feed required to get a calf for the block; calves of dairy type and calves of beef type lacking somewhat in fleshing at the start will not make gain comparable with that made by deep-fleshed, low set, thick, blocky calves that have never had their growth checked—calves of the thin-fleshed order incline to belly-fat and do not cover deeply with flesh on the back and loin. The last conclusion is that of farmers in the feed lot. Tenderness in handling the calves and careful attention to feeding regularly have nearly as much to do with the final result as has the feed.

## ALBERTA GAME LAWS FOR 1915.

Mountain sheep (two males) September 1 to October 31.

Sunday shooting is prohibited. Hunting over enclosed lands prohibited without having obtained the consent of the owner or occupant thereof.

The killing of animals under one year of age is prohibited.

## BRINGING HIM TO BOOK

Some men are doing their duty at home. Such duty as men may do. And some are fighting across the town. But tell me, what about you young man—Pray tell me, what about you.

To hear the band playing in the park you go, With your stick and your ice new hat.

But what I should, very much like to know, Is, why are you dressed like that young man, Oh, why are you dressed like that?

You meet men drilling, to fight the Hun, And free the world from a ban.

While your brothers are ready to face the Hun, Are you playing the part of Man my lad, Are you playing the part of Man?

The drums are beating, the bugles call, They have called for nearly a year, And the boys in khaki are loved by all.

So why are you lingering here, my man, Oh, why are you lingering here?

For the tanks you are doing today I find, We have made men to spare, You're never a chap that will stay behind.

When khaki's the only wear—my lad, When khaki's the only wear.

The boys in khaki are beckoning, Look! Resist their call if you can, Against your name in the Register I'll write, "He's a Kitchener's man my son."

"He's gone as a Kitchener man," Demeritists.

Ottawa, July 28.—The cost of living according to the records maintained by the labor department, has shown a slight falling off for the month of June in Canada.

The department's index number of wholesale prices for last month stands at 147.3 compared with 147.6 in May, 1915, and 133.3 in June, 1914, a falling off of three decimal points over the previous month, but a rise of just under 10 per cent for the year.

A bomb was found today by R. Bates at the rear door of his store over which the army barracks, a building located in Dauphin, Man. The charged end of the fuse was about two inches from the bomb and had apparently been burned out.

The Winnipeg authorities have been notified. Most all the workmen employed by the Standard Oil Company at its Constance Hook plant in Bayshore, N.J., went on strike today. There are now about 5,000 men out.

Two thousand and seventy-two new homesteads have been taken up in the Edmonton land district up to the present time this year. This is a considerable decrease from the 10,000 taken up for the corresponding period of last year, when the number was 3,323.

Many of the homesteads have been taken up along the route of the Alberta and Great Westways railway, and also in the McLeod Valley, to the west of Edmonton.

Many new beauty spots will be discovered in Canada this year by those who previously have spent their vacation beyond their own borders.

ONE SPOONFUL GIVES ASTONISHING RESULTS

Wetaskiwin residents are astonished at the QUICK results from the simple mixture of buckwheat, barley, glycerine, etc., known as Adler-Ka. This remedy acts on both upper and lower bowels and is as THOROUGH a bowel cleanser that it is used successfully in appendicitis. ONE SPOONFUL of Adler-Ka relieves almost ANY CASE of constipation, sour or gassy stomach. ONE MINUTE you take it the gasses rumble and pass out. T. F. Ball, druggist.

## GET YOUR FARM HOME FROM THE CANADIAN PACIFIC

An immense area of the most fertile land in Western Canada for sale at low prices and easy terms, ranging from \$11.00 to \$30.00 for farm lands with ample rainfall-irrigated lands from \$35.00. Terms—One Twenty down, balance in twenty years, interest only 6 per cent. Here is your opportunity to increase your farm holdings by getting adjoining lands, or secure your friends as neighbors.

Literature and particulars apply to B. A. CAMERON, Gen'l Supt. of Dept. of Natural Resources, C.P.R. Calgary, Alberta.

## Sheriff's Sale

PROVINCE OF ALBERTA TO WIT.

By virtue of a Writ of Execution issued out of the District Court of the District of Wetaskiwin, at the suit of the Mercantile Bank of Canada, Plaintiff, and W. E. SCHNABER and A. S. OAKES, Defendants, and to me directed against the lands of W. E. Schnaber, I have taken and taken into Execution the following lands, namely:

N.W. 1/4 of Section 4, Township 46, Range 27, West of the Fourth Meridian, except mines and minerals, which I shall expose for sale on Wednesday, the Eighth day of September, at the Court House, at the hour of Two o'clock p.m. Sheriff's Office, July 27, 1915. A. R. DICKSON, Sheriff.

## ESPECIALLY FOR WOMEN

"Fruit-a-lives" Now Known as Woman's Best Medicine

"FRUIT-A-LIVES" the famous fruit medicine is particularly well adapted for the use of women, because of its mild and gentle action and its pleasant taste.

In severe cases of Constipation, Indigestion, Bloating, Sick Headaches, Pain In The Back, Nervousness, or a General Run-Down Constitution, "Fruit-a-lives" is the only medicine needed to correct such troubles and restore the sufferer to complete health.

As a tonic, "Fruit-a-lives" is invaluable to purify and enrich the blood and build up strength and vigor.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

## LITTLE CHANGE IN MAJORITY OF THE DRYS IN ALBERTA

Edmonton, July 28.—The few scattered returns received today on the liquor act plebiscite, held on Wednesday, show no change in the general result, the majority in favor of prohibition being about 20,000. A few polls in the north today gave 'wet' majorities, but these were offset by others in the 'dry' column.

Outside of the cities of Calgary and Edmonton the largest majority given for the act was in the Camrose constituency, where there was a lead of 1,200, 30 per cent of the total vote being polled. Other constituencies which gave large 'dry' majorities were Lacombe, 1,042; Taber 1,002; Sedgewick, 816, and Red Deer 730.

Two thousand less votes were cast in the Lethbridge constituency on Wednesday than in the last provincial election. The miners' vote was responsible for the riding going into the 'wet' column.

The constituencies in the 'wet' column are Athabasca, Beaver River, Bow Valley, Edmonton, Grouard, Lac Ste. Anne, Fincher Creek, Redcliff, Rocky Mountain, St. Albert, St. Paul, St. Mary, Plain, Victoria and Lethbridge, or 14 out of 55. Lethbridge was the only city in the province to give a majority for the 'wets'.

Ottawa, July 23.—It is understood that despite representations which have been made to that effect, the collection of sums due on seed grain advances be held over for a year, the government will insist on making the collections this summer.

No man has any right to gape about a paper being poked when he has been a dead-end on the subscription list for three or four years. It is such as he who are keeping it poked.

## Ford Touring Car Price \$590

Prices of Ford spare parts have been reduced an average of ten per cent. A Ford touring car may now be bought, part by part, for but \$38.87 more than the price of the car ready to run. Another 15¢ slice off the "aftercost of motoring."

Buyers of Ford cars will share in the profits if we sell 30,000 cars between August 1, 1914 and August 1, 1915.

Outside of the cities of Calgary and Edmonton the largest majority given for the act was in the Camrose constituency, where there was a lead of 1,200, 30 per cent of the total vote being polled. Other constituencies which gave large 'dry' majorities were Lacombe, 1,042; Taber 1,002; Sedgewick, 816, and Red Deer 730.

A confirmed optimist, at all stages of the game, Mr. George Barry, vice-president and general manager of the C.P.R., sees no reason to worry over the lack of sunshine and instead of going back on his Winnipeg prediction of a 240,000,000 bushel wheat crop, he has almost come to the conclusion, after a careful inspection of the grain prospects secured in the course of a tour of the entire western territory to the east that another 10,000,000 bushels may be tacked on, and that the people of western Canada may look forward to a yield bordering closely on the 250,000,000 bushel mark.

## WAS SO WEAK WOULD HAVE TO STAY IN BED.

Millburn's Heart and Nerve Pills Cured Her.

Mrs. J. Day, 234 John St. South, Hamilton, Ont., writes: "I was so run down with a weak heart that I could not even sweep the floor, nor could I sleep at night. I was so awfully sick sometimes I had to stay in bed all day as I was so weak. I used three and a half boxes of Millburn's Heart and Nerve Pills, and I am a cured woman to-day, and as strong as any one could be, and am doing my own housework, even my own washing."

"I doctored for over two years, but got no help until I used your pills." Millburn's Heart and Nerve Pills are 50c per box, 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Millburn Co., Limited, Toronto, Ont.

FOR SALE BY H. L. HIGGS.

Admission, 50 Cents. Subscriptions taken for the Fund at Higgs' Drug Store and Ball's Drug Store

## PICNIC NEAR GWYNNE

A big picnic will be held at the old Ragsdale place, four miles north of Gwynne (one mile north and one mile west of Crooked Lake school house), on Wednesday (next week). A direct bus line has arrived at the picnic grounds. Motor and row boats will be available. The picnic will take the form of a celebration of the victory over the temperance forces in the recent campaign, and all those in sympathy with the temperance cause are cordially invited to attend. Geo. P. Smith, M.P.P., and others will deliver addresses. The proceeds will be turned over to the Alberta Temperance and Moral Reform League to assist in defraying expenses.

## ALBERTA GOES DRY

Alberta has settled permanently the temperance question—nearly, at least, swiftly and with a minimum of controversy and disturbance. The province has met this problem and solved it by the agency of direct legislation. The province of Alberta has a direct legislative law upon the State books. Under its provisions the temperance forces of the province submitted to the legislature a proposition to prohibit the sale of intoxicating liquors for a brief year on the Statute books of the province of Manitoba. The bill was passed by the legislature and subject to the ratification of the people of Alberta. The issue was submitted to the people of the province and from all other disturbing questions, and separated from all political influence, and they were asked to say whether or not they wanted the law to become effective. They have declared in favor of it by a vote of at least two to one, and, as a consequence, Alberta went dry July 1, 1915, and will remain dry forever, unless the people, by popular vote, reverse the decision given on Wednesday—Winnipeg Free Press.

The Agricultural department of the provincial government have made arrangements with all railway lines to furnish the extra harvest help required in the province. They have also arranged to supply help from Edmonton and Calgary with a single fare rate of one cent a mile upon the presentation of certificates signed by Sheriff Graham of Calgary, and C. H. Publicity Commissioner at Edmonton. Permission has been received from the military department to employ such soldiers now in camp that wish to engage in harvest work.

A school of instruction is about to be held in the Military Hospital at Calgary, Alta., for Army Medical Corps officers. All Medical Practitioners who are registered in the province of Alberta are eligible to be appointed to the Canadian Medical Corps and after appointment are eligible to attend this course. Officers attending this course will draw pay at the rate of \$2.00 per day with a field allowance of 60c per day during the period of the course. They will be attached to the Field Ambulance depot at Calgary Military Camp. The course will commence about the first week in August and will last for 12 days. All applicants should communicate with the Camp Commandant, Mobilization Camp, Sault Ste. Marie, Ontario.

The provincial department of agriculture ran an excursion on the Great Northern Railway last. As excursions were run from Edmonton, Calgary and other points. Several from this city and district were in attendance. Mr. Hinchey, addresses were delivered by the mayor of Lacombe, Mr. Hinchey, superintendent of the farm, H. S. Craig, deputy minister of agriculture for the province, and Mr. Hinchey of the C.P.R. Natural Resources department. Everything about the premises is in first-class condition, and a most enjoyable and profitable time was spent by those who attended, in viewing and examining the various plots of fruits, vegetables, grain, etc., as well as securing information as to the best methods of handling live stock.

## L. O. L. Honors Its Members Who Have Enlisted

On Monday evening last a special meeting of Wetaskiwin L.O.L. No. 176 was called to honor Bro. Jos. Carter, Deputy Master, Bro. J. B. Morris, Fin. Sec., and Bro. W. D. Morris, a member of Edmonton L.O.L. No. 179, who have taken an active interest in the efforts of the Wetaskiwin Lodge, and all of whom have enlisted in His Majesty's service.

After opening the lodge, the W.M., Bro. M. L. Wright, vacated the chair and called upon the D.M. to yield the gavel, while he himself took a seat among the brethren on the floor. Bro. Wright then moved, seconded by Bro. C. Brown, "That this lodge express its appreciation of the services rendered to the lodge by Bro. Jos. Carter, D.M., Bro. Fred Morris, Fin. Sec., and Bro. W. D. Morris, of 1749, and that we extend to them the hand of fellowship and brotherhood and wish them God-speed, as they go forth in the defense, not only of King and Country, and Empire, but also of weak nations, against the oppression of the strong, and for the upholding of the sacredness of treaties and those British traditions of liberty, justice and national integrity which we prize so much."

"We also recognize that they go forth not only as true British subjects, but also as true Orangemen; for while patriotism is not a monopoly for our order, as may be seen from the number of non-Orangemen, Roman Catholics, and Protestants who have enlisted from our town, yet it may be characterized as a distinctive doctrine of the order. "We also appreciate the still greater sacrifice of the wives of the married brethren, who have given their hearts to their loved ones going forth to average the insults offered to, and the wrongs heaped upon, not only the wives and daughters of the Belgians but also upon the sons and the female members of other sacred orders in Belgium."

"We greet these brothers and brothers, Sidney Burns and Samuel Rolston, who enlisted before that whether we greet them upon the battlefield, or victorious in the Canadian Huns, as some of us hope to do, or once more in the lodge room of 1776, that they shall have the heartiest welcome and the hands of the true Orange brotherhood, because we feel that while living they will uphold both British and Orange traditions, and if any of them is called upon to lay down his life, he will die as did the master who carried the Orange warrant with him in the charge of the Light Brigade, and who died fighting with his face toward the foe."

The W.M., then assumed command of the lodge room and after Bro. Brown, Lake, Githals, Lantz, and C. Coupland had spoken, put it to the lodge which carried the motion unanimously and enthusiastically.

Letters were received from Bro. F. Morris and J. Carter, resigning the offices which they held in the lodge. It was moved by Bro. Wm. Lake, seconded by Bro. C. Brown, "That we do not accept the resignations of Bro. Carter and Bro. Morris, but that they remain in office and pro tem appointments to be made by the W. M. in their return, or their term of office expires. This was also unanimously carried."

By vote of the lodge the W.M. was permitted to give the promissory motions for publication.

## WETASKIWIN BAND

### JOINS 68th BATTALION

It seems that there has been some delay in the official confirmation of the announcement that the Medicine Hat and Calgary companies, originally intended for the 2nd Battalion at Edmonton, will form the nucleus of a new battalion to be organized at Calgary. As the market stand at present, the battalion including the two companies in question, is practically up to strength, and unless the province is to make the principle of change is confirmed in a day or two, recruiting will have to stop.

This state of affairs is one which would be very much regretted by the citizens generally, as there are still large numbers of available men in the Edmonton district, and it is thought that there would be no difficulty in filling up to two more battalions.

Recruiting was brisk with the 68th battalion all day yesterday, nearly forty names being added altogether. One important feature of the day was the arrival of the members of the Wetaskiwin Band, which will become the regimental band. The men had a splendid send-off from the citizens of Wetaskiwin, all of them being clothed and a general holiday being proclaimed. The instruments are being loaned to the battalion by the city, and will be returned to the city or until others can be obtained.

Many of the men awarded certificates for the first time in uniform, all of which had been nicely fitted. The men present a very smart appearance.—Bulletin.

## CROPS IN BRITAIN BELOW THE AVERAGE

The London Times' special crop reports, which are recognized as the standard of authority, are discouraging. All crops are under average, owing to the cold, wet, protracted winter, protracted drought, and cold nights. Wheat suffers the most. The men present a very smart appearance.—Bulletin.

The board of trade returns on the industrial situation show unemployment of only 1 per cent, quite an unprecedented figure. Pauperism has materially decreased and in many of the English cities districts are now only about 15 per thousand. Food prices have risen 30 per cent in value and 25 per cent in the large towns since the beginning of the war.

## EDMONTON EXHIBITION TO BE A MILITARY EXHIBITION

Bugle calls us to arms in the Edmonton Exhibition of 1915, a genuine Military Exhibition in keeping with war time.

Visitors to the exhibition, August 1st, will enjoy the unique experience of seeing war and peace combined for the welfare of the exhibition. The 3rd and 6th Battalions, C.E.F., are now quartered on the exhibition grounds in training for active service, and are co-operating with the exhibition association to keep things going "as usual" at home, and make the fair of 1915 a brilliant success, bigger and better than ever.

Battalions have been heavy and represent a 12th class of exhibits, worthy of the attention of every visitor. The attractions are of the best, and include many military exercises, such as mass physical drill and similar features put on by the battalions mentioned previously.

The Musical Ride will be put on by sixteen boys and girls riding ponies, and promises to be a popular event. Another feature which promises to rival all others is the roller coaster which has just been completed. This will provide thrills for everybody who boards it. The roller coaster will slide away up hill and down, over the treelands and in their shade, covering the half mile route in a minute and a half.

The World at Home shows on the midway are clean, high class shows, and the events put on before the grandstands are now in Edmonton and distinctly high class.

The 1915 Mixed Farming series of train sent out by the department of agriculture will be on the grounds and visitors are advised to go through this train and hear the lectures in connection with the exhibits presented throughout the exhibition. Visitors will find entertainment unsurpassed in the history of the Edmonton Exhibition.

CAMROSE

(From The Canadian)

Rev. T. T. Carlson, who for many years has been pastor of the Hauges Lutheran church here, has definitely decided to accept the position of superintendent of Home Missions, offered him at the recent convention at Grand Forks, N. Dak., and has placed his resignation before the congregation here.

The Board of Health wishes to advise the people of Camrose that, due to the water supply is cut from what it was formerly, there is nothing injurious to health contained therein. Whatever offenses are due to sulphur and coal strata of the wells and stagnation in the m.v.a. Measures are being adopted at present to deodorize and purify the daily supply.

The U.F.A. picnic held on the Agricultural grounds on Tuesday last, was one of the most successful functions held in Camrose for many a day. The weather was clear and calm and just what the farmers have been praying for. The ground was the largest ever seen on the grounds. The highest games were interesting; the parade of the children with their teachers and mothers was an institution; everybody was happy and altogether the occasion was most pleasant and profitable.

Mr. Robert Sawyer, the president of the local union, occupied the chair and introduced the speakers in the following order: Mr. G. G. P. Smith, Mr. Frank P. Layton, Mr. H. G. Vickery, a Strome, one of the directors of the U.F.A., and Mr. J. Speckman, president of the organization.

Everything in which the farmers have been interested was touched upon by the various speakers, and Mr. Speckman gave a splendid outline of the present aims of the organization. He was particularly fervent in his advocacy of free trade principles, his warning to the farmers not to buy on credit and his appeal to farmers everywhere to vote on the morning so the principle of direct legislation might be vindicated.

"ROUGH ON RATS" clears out rats mice etc. Don't die in the house, 15c and 25c at Drug and Country stores.

## METHODIST

On Sunday evening, July 25, at a special meeting of the Quarterly Official Board, of the church it was decided to hang up in the church a roll of honor draped with the British flag. The roll to have inscribed thereon the names of the members and adherents of the church who have enlisted for active service during the war.

The names of those entitled to be upon the roll up to the present are: Sgt. W. F. Murphy, Pte. D. Woodcock, Pte. W. J. Morris, Pte. J. Jackson, Pte. E. Ragan, Pte. J. Wilson, Bandman C. F. Everts, Bugler A. Millin, Sunday services, August 1—11 a.m.—"The Evolution of Peter" 2:30 p.m.—Sunday School.

Every 10c Packet of WILSON'S FLY PADS WILL KILL MORE FLIES THAN THE FLYCATCHER.

7:30 p.m.—A Universal Flier and a Vast Deliverance.

The insect we now call the house fly should in future be termed the "typhoid fly" in order to call direct attention to the danger of allowing it to breed unchecked.

## Advertisements Show Where We Are Welcome

An advertisement is a beckoning hand, a token of invitation, a sign of welcome.

A business serving the public should most certainly advertise—beckon, welcome, and show an eagerness to serve.

The attitude of a business serving the public, yet which does not advertise, is not one of courtesy or appreciation.

A business which uses the expanding factor of advertising is on a fair way to reach its fullest possible potential development.

To the People in and About Wetaskiwin

You will have a better service, not to say better values, if every retailer in Wetaskiwin will advertise his business every week in the Weekly Times.

Shop Where You Are Invited to Shop
